# Overview

Junior Achievement programs offer a multidisciplinary approach that connects learning across social studies disciplines, such as economics, geography, history, government, and civics, while incorporating mathematical concepts and reasoning and language arts skills. By design, JA Programs incorporate grade level reading, speaking, and listening skills in all programs and many programs at the High School grade level also offer opportunities to do research, use technology for writing and responding, and practice presentation skills, all while supporting the JA Pillars of Financial Literacy, Work and Career Readiness and Entrepreneurship.

In this document, Junior Achievement programs are correlated to Washington State Academic Standards for Social Studies and financial literacy. This list is not meant to be exhaustive or intended to suggest that a JA program will completely address any given standard but is designed to show how it can enhance or complement efforts to do so. The flexibility of the programs and supplementary materials allow specific content or skills to be addressed in depth by the teacher and/or business volunteer as needed. Alternate delivery methods, such as remote digital delivery and student self-guided options, cover the same learning objectives for social studies standards and the JA Pathway Competencies. However, the varied implementation models may cause slight variation in English Language Arts and Mathematics correlations.

## High School Programs

[\*JA All About Cars™\*](#) allows students to consider their needs and wants for their first automobile.

[\*JA Be Entrepreneurial®\*](#) introduces students to the essential components of a practical business plan and challenges them to start an entrepreneurial venture while still in high school.

[\*JA Be Entrepreneurial \(modular\)\*](#) is a reimagined, modular program that teaches students about the mindset and the skills needed for success by aspiring entrepreneurs and innovators. In JA Creative Problem Solving, students learn and apply design thinking, an innovative process for problem solving used by entrepreneurs (and intrapreneurs).

[\*JA Career Exploration Fair™\*](#) is an event where students learn about a range of career options across multiple career clusters.

[\*JA Career Speaker Series™\*](#) brings a volunteer guest speaker into the classroom to share information about his or her career, work, and education experience.

[\*JA Career Success®\*](#) equips students with the tools and skills required to earn and keep a job.

[\*JA Company Program®\*](#) 2.0 empowers high school students to fill a need or solve a problem in their community and teaches them practical skills required to conceptualize, capitalize, and manage their own business venture.

[\*JA Excellence Through Ethics™\*](#) affords students the opportunity to learn the importance of ethics and ethical decision-making and how ethical and unethical choices affect everyone in a community.

[\*JA High School Heroes™\*](#) provides leadership development opportunities to high school students who deliver JA programs in elementary schools.

[\*JA Inspire™\*](#) is both a class and event-based Junior Achievement learning experience that helps launch students into their futures. This student self-guided classroom curriculum culminates with a JA Inspire event that may be completed virtually or in-person.

[\*JA It's My Job \(Soft Skills\)™\*](#) will help students understand the value of professional communication and soft skills, making them more employable to future employers across multiple career clusters.

[\*JA Job Shadow™\*](#) prepares students to acquire and apply the skills needed in demanding and ever-changing workplaces.

[\*JA Job Shadow™ Blended Model\*](#) is a comprehensive experience that helps students design an individualized career path. Supporting blended as well as self-guided activities, JA Job Shadow provides a design-thinking structure for career exploration.

[\*JA Personal Finance®\*](#) allows students to experience the interrelationship between today's financial decisions and future financial freedom.

[\*JA Take Stock in Your Future™\*](#) helps students discover the benefits and challenges of investing in the stock market as part of a broader, long-term investment strategy and the risks and rewards of trading.

[\*JA Titan®\*](#) introduces critical economics and management decisions through an interactive simulation.

[\*JA Titan® Blended Model\*](#) is a simulation-based program in which high school students compete as business CEOs in the phone industry, experiencing firsthand how an organization makes decisions.
